BOATBUILDER/OEM PRICES

Price List and Supplement to Catalog 7
 Effective Until: 30 June 03

All STIDD 500 Seats are fully-equipped, including fore/aft slides, telescoping pedestal, locking swivel, X2 footrest, deck interface plate, and seat hardware... unless ordered otherwise.

GUIDE TO COVERINGS

VINYL (*Naugahyde*)

Available in a range of basic colors, this traditional Naugahyde vinyl covering is "industrial strength". Our most economical covering, vinyl is generally used in either interior or exterior places, where extreme comfort is not a primary goal. The standard vinyl package does not include a wrapped backpan exterior. Available for all models.

POLYURETHANE

(*UltraLeather*)

Our most popular upholstery choice, because it is truly the best value! For a warm and rich upholstery covering with the optimal combination of comfort and strength, choose polyurethane over spun rayon (a marine grade formulation of a fabric commonly referred to as "UltraLeather"). This amazing synthetic leather-like plastic is strong, durable, supple and easy to maintain, which is why it has become the choice of sport fishermen, interior designers and discriminating yacht owners. Our Polyurethane is treated with STIDD's proprietary formulation to resist mold and fungus, making it suitable for either exterior or interior marine use. Available in over 60 colors! The Polyurethane package includes a wrapped backpan exterior. Available for all models.

Need matching material to complete your overhead? Additional 54" wide roll stock is available by the yard, up to 33 yds. per roll. Order as many yards as you need of p/n 510-112. Color chart available upon request.

FACTORY-SUPPLIED PREMIUM LEATHER & C.O.M.

(*Customer's Own Material*)

For those rare individuals in whose vocabulary the words "compromise" and "economize" do not exist, factory-supplied premium leather and customer supplied upholstery options are also available for any STIDD seat. Refer to C.O.M. requirements or contact factory for more details. Upholstery up-charge applies to all COM and Leather options.

HIGH PERFORMANCE SEATING

NEW!

800v.5.3

Advanced Shock Mitigating Operator Seat/Bolster

Refer to page 18 of Catalog 7

The 800v5.3 represents the most advanced marine shock-mitigating seat system available. Proven in 6 ft. seas at 50 knots aboard the MkV Special Operations Craft, the 800v5.3 provides superior comfort and safety in long duration, open-water transits of high performance craft.

Physical Specifications:
Height: 65"
Width: 24.5"
Footprint: 44"
Weight: 147 lbs.

800v5.3 Commercial Model shown in White Powdercoat Finish with White UltraLeather Upholstery and Blue Piping.

Series 800 patented design allows for rapid conversion from standing-to-seated-to-standing positions.

Model 800-101v.4 Operator Seat/Bolster.

Refer to pg. 19 of Catalog 7

Mission proven aboard the MkV SOC. For high performance boats the 800-101v.4 seat/bolster offers unparalleled comfort and safety. Its unique design provides upper body substitution reducing impact p.s.i. by as much as 66 percent. Patented lift-to-extend-lift-to-retract design allows for rapid conversion from standing to seated positions.
